

# Which Austin Air filter is right for me?

Filter	HEGA	Carbon/Zeolite	Superblend
	 <p data-bbox="251 829 682 892"><b>Best Particulate Filter</b></p>	 <p data-bbox="706 829 1128 892"><b>Best General Coverage</b></p>	 <p data-bbox="1153 829 1575 892"><b>Best Extreme Sensitivities</b></p>
<b>Availability</b>	Available in AllergyMachine™, Bio-4000, HM400 HEGA or Baby'sBreath, HealthMate Jr.™HEGA Models	Available in HealthMate™ or HealthMate Jr.™ Models	Available in Healthmate+™ or Healthmate Jr.+™ Models.
<b>Application</b>	<p data-bbox="276 1071 649 1218">This machine is designed specifically for allergy and asthma sufferers. It provides identical particle removal capacity and efficiency of the HealthMate™.</p> <p data-bbox="276 1239 665 1659">Because the carbon cloth does not release carbon dust when air passes through it, the design of the filter places the True Medical HEPA paper on the outside of the filter allowing the air to pass through the paper before it passes through the carbon. Because of this design, the airborne particles are removed before the air contacts the carbon. The total surface area of the carbon is available for gas and odor removal only and its useful life is increased. The lighter weight of this unit allows for easier care and maintenance.</p>	<p data-bbox="722 1071 1096 1323">Our standard unit for people with simple air quality concerns. Provides overall coverage for a wide variety of gases, chemicals and allergens. The addition of zeolite improves coverage for formaldehyde and ammonia. Good for those with allergies to mold, dust mites, and hay fever.</p> <p data-bbox="722 1344 1088 1491">Effective for an area up to 1500 sq/ft, assuming average residential ceiling heights of 8 ft. Provides effective coverage of large household living areas, small apartments and offices.</p>	<p data-bbox="1177 1071 1542 1354">This machine is user specific. Although it provides the same benefits as the standard HealthMate™, the addition of potassium iodide (along with the zeolite), provides greater relief for people with severe chemical sensitivities. It is highly recommended for people with this ailment.</p> <p data-bbox="1177 1375 1542 1522">Effective for an area up to 1500 sq/ft, assuming average residential ceiling heights of 8 ft. Provides effective coverage of large household living areas, small apartments and offices.</p>
